

To up your game, a booster dose is your best ally against COVID-19 and its variants

Even after a first and second dose of a COVID-19 vaccine, your immunity to the virus can decrease overtime.

If COVID-19 is your opponent, you want to be as prepared and boosted as possible. It's been a tough battle but don't give up now!

Continue to protect yourself from COVID-19 and its variants, by getting a booster.
